Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The examiner for the instant application has changed. Current examiner assigned to this application is Ali Soroush.

Acknowledgement of Receipt

Applicant's response filed on 11/20/2006 to Office Action mailed on 05/18/2006 is acknowledged.

Status of the Claims

Claim 82 has been amended and claims 93-107 are newly added. Claims 1-81 and 83-92 were previously cancelled. Therefore, Claims 82 and 93-107 are presented for examination for patentability.

Upon consideration of the newly presented claims the new examiner of record requires an election of species as set forth below in the Office Action.

Election/Restrictions

Claims 93-104 are directed to a second active agent, i.e. species: skin peeling agent, sunscreen, retinoic acid, hydroxyanisole, ascorbic acid, magnesium ascorbate, resveratrol, and tyrosine inhibitor, combined with one of compounds of formula II-VIII. Each of these species in combination with one of compounds of formula II-VIII would render a different composition with different function and effect. The species are independent or distinct because the species are mutually exclusive (See MPEP § 806.04(f)). Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed. Claim 105 is directed to the genus "an agent

that enhances percutaneous administration" having patentably distinct species: dimethylsulfoxide, dimethylacetamide, dimethylformamide, azone, acetone, propylene glycol, and polyethylene glycol. The species are independent and distinct because the species have acquired a separate status in the art in view of their different classification and modes of action. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).

A telephone call was made to Dr. Ann-Louise Kerner on 05/29/2007 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ali Soroush whose telephone number is (571) 272-9925. The examiner can normally be reached on Monday through Thursday 8:30am to 5:00pm E.S.T.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's Supervisor, Johann Richter can be reached on (571) 272-0646. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
